4. Evaluating Progress Toward Measurable Goals MCM 1

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The Village's Public Education and Outreach program will be tailored to describe topics related to the impacts of storm water discharges on local water bodies, pollutants of concern and their sources, and the steps that can be taken to reduce pollutants in storm water runoff and non-storm water discharges. The Village's program will make special note of the discharge of pathogens to the water bodies of Sag Harbor and Sag Harbor Cove.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Due to the private, isolated and seasonal nature of many of the homes and residents in the Village, typical Phase II measures are not always effective or efficient. As a result, the Village has chosen to evaluate the number of kiosks/displays of storm water information in the Village as an indicator for measuring the overall effectiveness of the public education and outreach program. There is two kiosks/displays of storm water information at Village Hall.

C. How many times was this observation measured or evaluated in this reporting period?

		1	2
--	--	---	---

*(ex.: samples/participants/events)***D. Has your MS4 made progress toward this Measurable Goal during this reporting period?**
 Yes No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?
 Yes No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Village plans to continue to evaluate the number of kiosks/displays of storm water information in the Village as an indicator for measuring the overall effectiveness of the public education and outreach program in the next reporting cycle. The Village will continue to update the kiosk/display at Village Hall with storm water/pollution prevention information periodically throughout the next reporting period.

7. Evaluating Progress Toward Measurable Goals MCM 2

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The Village's Public Involvement/Participation program will incorporate stewardship activities that help to reduce pollutants of concern (i.e., the discharge of pathogens to the water bodies of Sag Harbor and Sag Harbor Cove) and encourage the general public, residents and businesses to become involved in storm water management and environmental stewardship events. Village zoning code is key element of water quality protection. It is frequently reviewed and modified with public input.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Existing zoning and site plan reviews are highly effective in water quality protection and are open to public. Continue public notice of meetings.

C. How many times was this observation measured or evaluated in this reporting period?

7. Evaluating Progress Toward Measurable Goals MCM 4

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The Village's Construction Site Storm Water Runoff Control program is equivalent protection to the NYSDEC SPDES General Permit for Stormwater Discharges from Construction Activity. This includes reviewing SWPPPs submitted to the Village for projects disturbing an acre or greater of land. The review process will take note of any potential discharges of pathogens to the water bodies of Sag Harbor and Sag Harbor Cove. Utilize existing site plan review process to trigger.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The threshold for a SPDES General Permit for Stormwater Discharges from Construction Sites has not been met within the Village due to the Village's zoning and strict enforcement of clearing restrictions and buffer requirements for development. However, the Village will review SWPPPs as they are submitted and plans to evaluate the percent of SWPPPs reviewed as an indicator for measuring the overall effectiveness of the Construction Site Storm Water Management program.

C. How many times was this observation measured or evaluated in this reporting period?

The Village plans to continue to evaluate the number of SWPPPs reviewed as an indicator for measuring the overall effectiveness of the Construction Site Storm Water Management program. The Village will review SWPPPs as they are submitted to the Village for review, comment and approval. Improve record keeping.

- On behalf of a coalition

How many MS4s contributed to this report?

1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.
